

ILC Communication

Fast-Breaking News

June 22, 2005

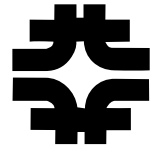

Judy Jackson
Fermilab Office of Public Affairs

Recent Developments

- US ILC Communicator hired
- Asian, European communicators soon
- GDE Web site, weekly message
- ILC Web development contract; strategic team at work
- Industrial Forum planned for Fall 2005
- Public participation moves forward.
- HEPAP Subpanel goes into high gear
- The All-ILC issue of symmetry
- Snowmass

US ILC Communicator

Barry Barish has hired Elizabeth Clements as US linear collider communication person.

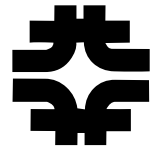

You know her from Fermilab Today.

She will start for ILC as soon as we can clone her for Fermilab.

Based at Fermilab, but SLAC is looking forward to a visit very soon.

Europe and Asia soon

A new position is being
defined at KEK

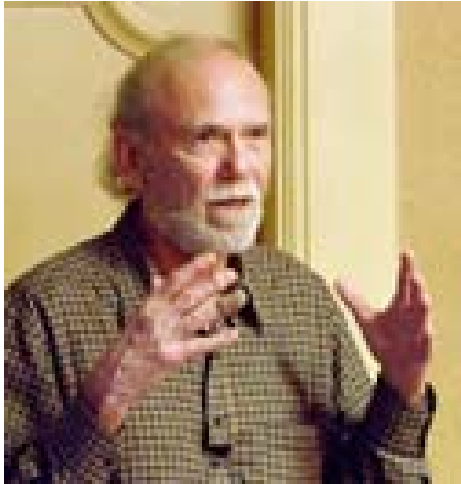

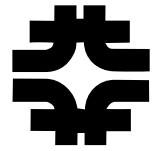

Half time communicator
at DESY; half at IN2P3

European person will be
at Snowmass. Asian?

GDE Weekly Message, Site

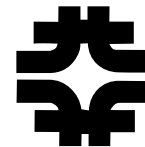

What's happening?

<http://www.interactions.org/linearcollider/gde/>

Until the ILC / GDE Web site is ready

GDE Web site

Contract in place with
Xeno Media

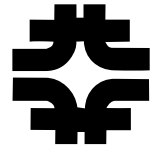

Web team at work:

Youhei Morita, Francois LeDiberder,
Karsten Buesser, Neil Calder,
Tom Markievich, Harry Weerts,
Tor Raubenheimer, Neil Calder,
Judy Jackson, Phil Burrows

Ready by Snowmass
(DMS)

Industrial Forum

- Industry contacts at PAC, coordination with April Burke
- “A word of caution. With the LHC the biggest potential political divisions came about over which company from which country got which contract. It might be inadvisable to to go too far without international consultation.”
Neil Calder
- Planning Fall Industrial Forum at Fermilab. Will include SLAC, other collaborators.

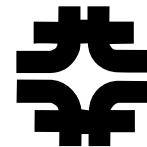

Public Participation

- Will invite subcommittee of Fermilab Community Task Force to join Fermilab Site Evaluation effort.
- USILCCC has taken public participation as its issue
- Perspectives Group to hold Snowmass planning session, give plenary talk.

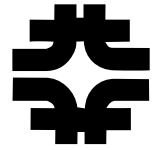

All ILC Issue of symmetry

- Due out August 1
- Features
 - Postcards from the Terascale
 - EPP2010
 - Six profiles from around the world
 - CLIC
- Explain it in 60 seconds: ILC
- Deconstruction: ILC organization
- Voices: p2
- Commentary: Ben Tannenbaum

HEPAP Subpanel on Overdrive

Report must be a
home run

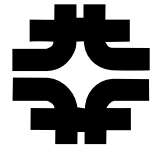

Two phases: EPP2010,
then everyone else

Complete draft due
TODAY

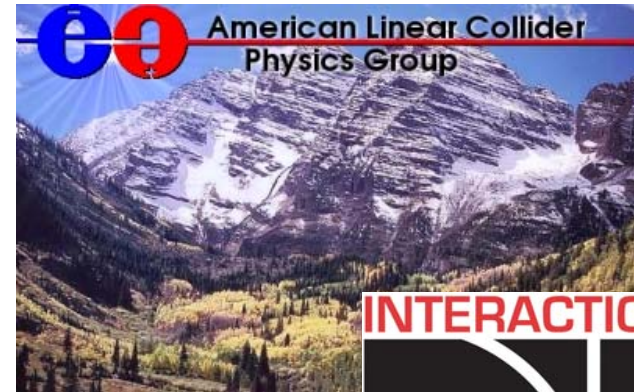

Challenging project

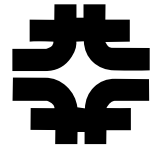

Snowmass

- Working Group 6
- ILC communicators
- InterAction Collaboration
- USILCCC
- Perspectives Group
- Plenary Talks
- Emerge from Snowmass with a functioning global ILC communication organization

Coming

- Logo
- ILC This Week
- HEPAP Report
- New computer for Barry Barish
